Love Spell

Materials: 1 pink candle, 1 bottle of 100% virgin olive oil and something to light the candle

Process: Take the candle and place it on a table or your altar.

Now take the olive oil and rub on to the candle starting in the middle and going up, then starting in the middle going down. While purifying the candle with the oil you want to recharge the candle with love and desire, so visualize love and channel all your emotion into the candle. After the oil is finished, take a knife and carve what it is you want into the candle.

EXAMPLE: *I Wish For Sally Jo Ann to love me*

After finished writing in the candle, simply light it and concentrate on love and throw as much emotion (love) into the flame of the candle as possible, you may even want to add words if you wish. Sit and do this until the candle has burnt out. Once the candle has burned out, the spell is finished.
